MEMORANDUM FOR: Project Contracting Officer

SUBJECT : Clearance for [REDACTED]

25X1A

REFERENCE : TCS-269-56, dtd 7 November 1956

You will note that the Project Security Officer has no objection to granting a Project clearance to [REDACTED] as explained in the attached memorandum. I believe, however, we should try to have a meeting in the near future on the security implications of widening knowledge of AQUATONE subsystems.
